## Welcome to Games Workshop's 2008 Citadel Miniatures Catalogue.

Inside these pages we are proud to present our full range of models for Warhammer, Warhammer 40,000, and The Lord of the Rings, as well as all of Games Workshop's rulebooks, army books, codexes, terrain, and hobby supplies.

This tome is more than just a catalogue though – it is an indispensable full-colour showcase of the most finely sculpted miniatures on the planet. Even better, each of the models has been painted by the world famous 'Eavy Metal team. We hope you enjoy poring over the models, making up army lists, and gazing at the inspirational paint jobs as much as we do.

This catalogue is a snap-shot of our product range in January 2008. Games Workshop releases new models and products every month and to make room for these items older codes will occasionally drop out of the range.

## About the Models

Models in this catalogue are shown painted. All models are supplied unpainted. All miniatures are shown at ACTUAL SIZE, unless otherwise noted. All models that require a base are supplied with the correct plastic Citadel Miniature slottabase.

The models shown in this catalogue are shown assembled. This is not how they are supplied. All models will require some assembly. Most models require nothing more complicated than affixing the miniature to its plastic base. Some multi-part metal kits are labelled in this catalogue as being recommended for experienced modellers. These kits will need a degree of modelling skill to assemble.

# MULTI-PART PLASTIC KIT

## Multi-Part Plastic Kits

The multi-part plastic kit is a boxed set that contains one or more plastic "frames" of models or component parts that can be clipped out and assembled in a variety of different poses and often with several choices for weapons or equipment.

Some multi-part plastic kits can make several options of model or troop type depending on which combination a modeller selects. Here we have shown five Space Marines made from the frames in the Space Marine Tactical Squad boxed set.

Other kits may allow for a variety of weapon combinations, upgrades, or accessories. To the right we have shown a variety of differently assembled Empire Wizards.

For each product that bears the multi-part plastic kit stamp we have shown a painted example of just some of the models that can be assembled and a brief description of all the models and/or weapon choices that are possible.

## Safety First

Citadel Miniatures are fine scale models designed for gamers and collectors. Due to small parts and essential pointed components, Citadel Miniatures are NOT recommended for children under 12 years of age.

Modelling tools can be dangerous if used improperly. Craft knives particularly should always be used with the greatest care and should not be used at all by young children. Always be sure to read the instructions on the packaging when using any type of glue or spray primer.

## The Order of Things

This catalogue is organised by games system and then divided by army. Each army is then organised to reflect their Army book or Codex. Thus, for Warhammer armies Lords & Heroes are listed first, followed by Core, Special and Rare choices.

# DWARVES

*"A Dwarf army is like a well-crafted mail shirt; each warrior is an iron-hard link, knitted together by duty, honour and loyalty. And, like a mail shirt, never a blow shall pass them as long as all the links remain strong."*

– Dwarf saying

The Dwarfs are the most tenacious and determined warriors of the Warhammer world. Their mountain holds are under constant pressure from Orcs, Goblins and Skaven so they must frequently march out to defend their homes and hoards. Even in defeat they record and remember every affront and will miss no opportunity to settle their grudges with the edge of an axe.

The High Elves have refined their martial skills and magical prowess over the centuries. As the primitive tribes of Man fought amongst themselves, the High Elves navigated the oceans and mapped the heavens. # DARK ELVES

*"We shall strike down our foe with sharp steel and cold hearts. The weak die so that the strong prevail and none shall be spared. Then and only then will our enemies know the true meaning of fear."*

*— Malekith,  
the Witch King  
of Naggaroth*

The Dark Elves, or Druchii as they call themselves, dwell in the realm of Naggaroth, far in the northern part of the New World. From their menacing, fortified cities, they sail forth to ensnare the free peoples of the Old World. Sacrifices of blood are made in the name of Malekith the Witch King, and the bodies of slain victims litter the battlefields as testament to the skill of the Dark Elf forces.

*"Athel Loren shall not suffer the presence of Men, nor Orcs, nor Dwarfs, nor Beastmen. If a foe takes a single step upon such sacred soil, they shall not take another."*

*Skarloc,  
Mist Walker of Athel Loren*

Deep within the dark forests, dwell the fey folk. Legends of Elves existing in the sacred forests and wooded lands have persisted for centuries and any traveller that steps into one of these forbidden places is never heard of again. Stories tell of a group of High Elves who decided not to return to Ulthuan but instead made their homes in the Old World.

# LIZARDMEN

*"Amid the darkness and horror of a world splintering apart, the armies of the true creators, we who were ancient at the dawn of time, will march forth once more. We shall sweep away all that is chaos and disorder, for ours is the true path, and none shall defy us."*

— Translation from ancient plaques attributed to Venerable Lord Kroak.

Long before the rise of the Elves, Dwarfs or Men, the Lizardmen existed in the oppressive depths of the steaming jungles. Coidly alien and enigmatic, their civilisation seeks to restore the order in the world that their Old One creators envisaged before their mysterious disappearance.

# CHAOS

*"Fear me mortals, for I am the Anointed, the Favoured Son of Chaos, the Scourge of the World. The armies of the gods rally behind me, and it is by my will and by my sword that your weakling nations shall fall."*

*– Archaon, Lord of the End Times*

From the far north come the conquering Hordes of Chaos, led by the Champions of Chaos and the immortal Chaos Daemons. Raised in battle, these great warriors fight for glory and the favour of their mighty gods. Immortality and everlasting power are the rewards for those who are strong, mutation and madness await the weak-willed and foolish.

*"Lightning shall sunder the skies, the rivers will flow with blood and war will come to the land. The legions of the long-dead kings shall once more rise eternal in conquest, and death shall ride beside them."*

*Settra, the Eternal King of Nehekharu*

For thousands of years they have lain within their mighty burial monuments. Called from their sleep of death, the ancient kings of Nehekharu march forth from their tombs to seek vengeance on those who would disturb their slumber. Even in death, the armies of the Tomb Kings march at the side of their lords, seeking to reclaim the kingdoms that were once their own.

**"CRUSH! STOMP!  
GORGE! SMASH! KILL!"**

Far to the east of the Old World lie the savage OGRE Kingdoms. Amongst the frozen and desolate mountains of this realm live the Ogres; ugly, violent monsters who kill and eat anything they can catch. A single Ogre has enough brute strength to destroy a farmstead or village, whereas the ramshackle armies that march west from the Ogre homelands are powerful enough to destroy empires.

# SPACE MARINES

*"They shall be pure of heart and strong of body, untainted by doubt and unsullied by self-aggrandisement. They will be bright stars in the firmament of battle. Angels of Death whose shining wings bring swift annihilation to the enemies of Man."*

*- Roboute Guilliman,  
Primarch of the Ultramarines*

The Space Marines of the Adeptus Astartes are Humanity's ultimate warriors, dedicated to the defence of the Emperor and the Imperium of Man. They are barely human at all, but superhuman, having been made superior, in all respects, to a normal man by a harsh regime of genetic modification, psycho-conditioning and rigorous training.

# IMPERIAL GUARD

*"I have at my command an entire battle group of the Imperial Guard. Fifty regiments, including specialised drop troops, stealthers, mechanised formations, armoured companies, combat engineers and mobile artillery. Emperor show mercy to the fool that stands against me, for I shall not."*

*- Warmaster Demetrius, at the outset of the Salonika Crusade, 733.M*

The Imperium of Man is beset in all quarters by perfidious traitors from within, savage aliens from without, and warp-spawned hordes from beyond. Across countless warzones the warriors of the Imperial Guard form the staunch backbone of the desperate war to hold back the relentless tides of the Imperium's enemies.

## Cadlan Pattern Sentinel

1.  $\text{H}_2\text{O}$  is a polar molecule. It has a bent shape, with the oxygen atom at the vertex and the hydrogen atoms at the ends of the bonds. The oxygen atom is more electronegative than the hydrogen atoms, so it pulls the shared electrons closer to itself. This creates a partial negative charge on the oxygen atom and a partial positive charge on the hydrogen atoms. The resulting dipole moment is represented by a red arrow pointing from the hydrogen atoms to the oxygen atom.

# IMPERIAL GUARD BANEBLADE

The Baneblade is one of the most powerful war machines in the galaxy. In one round of shooting alone it can bring to bear the mighty baneblade cannon, a demolisher cannon, two lascannons, and three twin-linked heavy bolters. This devastating firepower, coupled with its thick armour, makes the Baneblade the pride of the Emperor's armies.

The Baneblade is a massive plastic kit with 7 frames and over 250 components. The kit can be assembled in many variations with 3 optional slots for the sponson weapon mounts and all the components needed to make the Hellhammer Anti-Infantry Tank.

# THE INQUISITION

*"You must face the truth squarely and without flinching from duty. Our enemies are mortal no longer. Mercy for such as they is a chimera, self-deception is its only ally. Dedicate this weapon, given unto your hand at the behest of the Emperor, to their destruction. Regard its function as your only duty: you live only to bring cleansing fire."*

*- Galbus Heer, Lectures to the Ordo Malleus.*

The Witch Hunters of the Ordo Hereticus are perhaps the most sinister of all Inquisitors as the threats they must face lurk amongst the everyday citizenry of the Imperium; the witch, the mutant, the heretic and the fallen cleric.

The Inquisitors of the Ordo Malleus, the Daemonhunters, are at war with forces too terrible to comprehend and, together with the Grey Knights, they take the light of the Emperor into the darkness.

# CHAOS SPACE MARINES

*"We fight the long war, not through vain notions of duty or honour, but through a far purer purpose: hatred. At the height of our glory we were betrayed and cast out by our own kin. Guilliman, Dorn, Sanguinius - these are names I curse. Horus, Perturabo, Angron - these names I revere, names I would follow to the very end."*

*- Ferrous Ironclaw, Wasmith of the Iron Warriors Second Grand Company*

At the birth of the Imperium of Man, fully half of the Emperor's most trusted Space Marine Legions turned against him in a bitter civil war, becoming Chaos Space Marines. Ten thousand years after their defeat, those same traitors still launch their Black Crusades out of the Eye of Terror, intent upon nothing less than the utter destruction of the Imperium and the death of its weakling Emperor.

# ORKS

*"The Orks plague the galaxy from end to end with their ceaseless warring and strife. They are a race rooted so deeply in war that peace is utterly incomprehensible to them. They cannot be bargained with or bought save with weapons which they will inevitably turn against those who tried to bribe them. I pray with all my faith that some great catastrophe will annihilate them but I fear that ultimately it is they, not we, who will rule this galaxy."*

*- Imperial High Lord Xanthias*

Orks are the most widespread and warlike race of aliens in the bloodstained galaxy of the 41st millennium. They only live for one thing and that's war. They are constantly fighting anything that gets in the way, even themselves! In fact the only thing keeping the Orks from uniting and bringing down the end of the galaxy is their inability to get along. Were they to organise and unify, they would quickly overwhelm and crush all opposition.

# NECRONS

*"We are less than cattle to these beings, chattel to be cast aside, consumed or made sport for their pleasure. There is not one among them that would pay heed to a world of man as I would to an ant on my boot."*

*Inquisitor Kessel  
at the Conclave of Eidolon*

The skeletal warriors of the Necron race have lain dormant in their stasis-tombs for millions of years. Now, ancient portents are realised and a horror from the darkest depths of pre history awakes...

# DARK ELДАР

*"Spawned in the darkest pits of the universe, the piratical Eldar are a curse upon all races of the galaxy. For untold thousands of years they have preyed upon us, stealing forth from the shadows and dark places on their raids of terror and violence; massacring or capturing all those whose paths they cross."*

*• High Lord Kouron  
Imperial Commander of Astherax.*

These demented cousins of the Eldar are a curse upon all. For endless millennia, the Dark Eldar have preyed upon other species, butchering or imprisoning all. Their piratical raids strike without warning, smashing defences quickly and then disappearing before reinforcements arrive. When a raiding force appears on a planet, its inhabitants know one thing: it is far better to die fighting the Dark Eldar than be taken alive by them.

# THE COLLECTORS RANGE

In addition to the miniatures featured in the main section of this catalogue we are also proud to present the Citadel Collectors Range. This section of the Citadel Miniatures range is an exciting combination of brand new models for existing armies, popular designs drawn from our extensive archive plus a selection of vignettes and ancillary models intended primarily for painters and collectors.

Throughout the coming months and years we intend to make frequent and regular additions to the Collectors Range - be they completely new models or re-released classic miniatures from the Citadel vaults. In time the range will grow to be many times greater than the small sample we are displaying here - even as this catalogue goes to press we have many more models available in the Collectors Range than are shown on these pages. Please check our website for an up-to-date listing of the Collectors Range and visit the site regularly for details of all new releases.
